Re: Pre-Purchase Drug Screen
Horse – Deja Balou
Client – Vancleef

Dear Dr. Darragh:

CENTER FOR TOX SERVICES, INC. has completed the Pre-Purchase Drug Screen analysis of the sample submitted from the horse, "Deja Balou".

An aliquot of the sample was screened for the following drugs utilizing enzyme-linked immunosorbant assays (ELISAs). The drugs included in the routine screen were as follows:

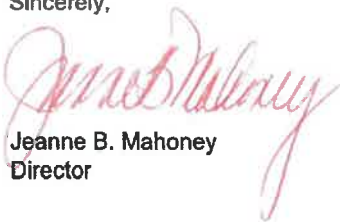

ELISA Procedures

Albuterol	Eltenac	Mepivacaine
Acepromazine	Flumethasone	Methyl Prednisolone
Betamethasone	Flunixin	Methocarbamol
Butorphanol	Fluphenazine	Pentazocine
Carprofen	Isoxsuprine	Phenylbutazone
Clenbuterol	Ketoprofen	Promazine
Detomidine	Lidocaine	Reserpine
Dexamethasone	Meclofenamic Acid	Romifidine
Diclofenac	Meloxicam	Xylazine

Based on a review of the results obtained from the ELISA procedures performed, no drugs were suspected in this sample.

The remainder of the sample will be destroyed fourteen (14) days from the date of this report unless written authorization is received to return the sample to your office.

Sincerely,

Jeanne B. Mahoney
Director
